## WHITE ON NAVY

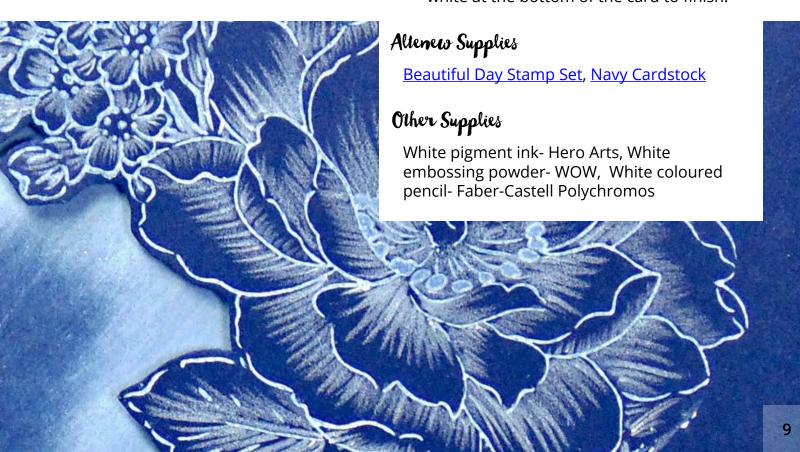

BY SVETA FOTINIA

#### Instructions

- 1. Stamp the outline layer of the large peony from Beautiful Day Stamp Set in white pigment ink onto some navy card. Mask this image off before stamping the leaves and blossom images into place. Let the ink dry.
- 2. Using a white coloured pencil add the white colour where the shadows would be darkest. This gives a negative effect.
- 3. Fussy cut around the bottom of the floral arrangement, place this onto a navy card blank and lightly mark around the bottom of the floral layer. Then remove the layer.
- 4. Add white pigment ink to the card blank under where the stamped image will go and blend it out so it goes past the earlier marked edge.
- 5. Add the floral card piece back into place with foam adhesive for dimension.
- 6. Stamp and heat emboss the sentiment in white at the bottom of the card to finish.
