1. What motivated you to start scrapbooking and begin stamping?

I've been crafting almost my whole life. I enjoy all craft activities: drawing, painting, knitting, needle crafting etc. I started my paper crafting adventure from Origami and paper quilling. Then I got into cardmaking when, 11 years ago, I discovered an amazing world of cardmakers on Flickr. After seeing all the fun papers, stamps and inks, I wanted to try it out myself. I was immediately hooked and haven't been able to stop since.

2. How did you fall in love with Altenew?

It was a "love at first sight" kind of story! In 2014, Tasnim asked me to Guest Design for Altenew and I still remember my excitement when I received the first Altenew stamp sets. I'm especially a fan of all the Altenew floral designs. I'm always waiting for the new releases and love the feeling when I'm itching to get my hands on the new products and start creating my cards.

3. Your use of clean lines is what we love! How do you plan your card layouts/sketches? Please share some tips on them!

I don't plan anything, I'm afraid. Sometimes (very rarely) I do a sketch first, but most of the times I work directly on my card base, so most of my designs are done by chance or luck. I'm always willing to experiment and try out new approaches but my main rule is, "less is more".

4. Do you have a specific style that you are comfortable with or like to stick to?

CAS style is definitely my favorite, but as I mentioned, I also love to experiment and play with different techniques from quick and simple to more artsy and mixed media-like.

5. Can you share a favorite card you made previously using Altenew products?

It's quite an old card but it's still my favorite.

6. This is just for fun! If you can choose only three crafting supplies for the rest of your life, what would you choose?

At first I thought it would be a hard choice but in the end, I'd be happy with the basics: white cardstock, stamps, and inks.
